

The H2O e3™ is effective, economical and eco-Safe.

The perfect cleaning tool for all the hard to reach places in your home. eActivator supercharges the water we drink and the salt we eat into an all-natural, super cleaning, sanitising, deodorising solution called S-Water™! Real People LOVE the H2O e3™.

Effective

Economical

Eco-Safe

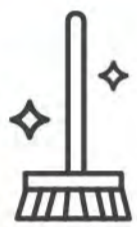

The best way to deodorise a room with the H2O e3™ is to **switch from the eMop function to the eSprayer**. Simply spray the S-Water™ onto surfaces that might be holding the odours.

Children's toys

Coffee/dining room tables

Dog/cat beds

The H2O e3™ works quickly and effectively on hard flooring including, **LVT, laminate, engineered and hardwood**.

Cleaning mirrors, wardrobes, bedside tables and drawers

As well as flooring and walls, the H2O e3™ is **safe to use on your windows**

The same technique can be used for **glass shower doors and panels**.

Start by applying **S-Water™** to the area with the eSprayer, then use the eSqueegee attachment to wipe away any dirt or scum off the glass. **Your windows will be left sparkling clean with a streak-free shine.**

You can use the H2O e3™ to **clean the exterior of your cooker**, including the electric hob, cooker door, handles and knobs.

Use the eSprayer and a cloth to clean your cooker with the **S-Water™ solution**. Spray the surface and wipe any food or dirt away, whilst killing germs.

Make sure you treat each component of your cooker and its markings **gently**.
