TECHNOLOGY BREAKDOWN

🌟 3x Faster

Powered by **Micro-Steam Technology**, the H2O Steam Styler hydrates each strand as you style — helping reduce breakage and allowing you to style in just one pass.

💎 3x More Shine

Infrared Heat penetrates gently, locking in moisture from within. This means less heat, less damage, and a sleek, radiant finish every time.

💪 3x The Hold

Advanced **Ion Therapy** with tourmaline-infused plates releases negative ions that tame frizz, lock in moisture, and boost shine — giving you longer-lasting styles

Steam Styler™

SOFT WAVES

Expert advice to help you style like a pro.

Transform straight hair into soft, glamorous waves with the power of steam – the gentle, frizz-fighting way to style!

Unlock Now

1. PREPARE YOUR HAIR

- Start with dry, clean hair.
- Apply a heat protectant spray evenly to shield hair from heat.
- Gently comb through to detangle and distribute product.

2. SECTION FOR CONTROL

- Divide hair into three layers: bottom, middle, and top.
- You can use sectioning clips to keep the upper layers out of the way.

3. HEAT UP THE STYLER

- Fill the water tank of your H2O Steam Styler.
- Power it on and allow it to fully heat up until it's ready to steam.

4. STYLE THE WAVES

- Take a 1–1.5 inch section of hair.
- Clamp the styler near the root, rotate it 180° away from your face, and slowly glide it down the hair shaft.
- Release gently and let the curl form.
- Repeat on all sections, alternating curl directions if desired.

5. LET IT SET

- Allow curls to cool completely before separating.
- Finger-comb to break curls into soft, defined waves.

AFTER

PRO TIPS

- Hold the styler horizontally for more volume.
- Always curl away from the face in the front sections.
- Let curls cool fully for long-lasting waves.

Steam Styler™

SLEEK STRAIGHT

Expert advice to help you style like a pro.

Use the H2O Steam Styler's gentle steam to smooth frizz and straighten hair while locking in moisture for a sleek, shiny finish!

Unlock Now

1. PREPARE YOUR HAIR

- Start with clean, dry hair
- Apply a heat protectant spray evenly throughout, focusing on frizz-prone areas.
- Comb through with a wide-tooth comb to remove tangles.

2. SECTION FOR CONTROL

- Divide hair into four layers: bottom, lower-mid, upper-mid, and top.
- Clip up the top three sections, leaving the bottom layer free.

3. HEAT UP THE STYLER

- Fill the H2O Steam Styler water tank and switch on.
- Allow it to reach steaming temperature before use.

4. STRAIGHTEN EACH SECTION

- Take a 1-inch wide section of hair.
- Clamp the styler at the root, ensuring steam contacts the hair.
- Glide the styler slowly down the hair shaft in one smooth motion.
- For extra sleekness, follow immediately with a paddle brush and re-glide if needed.
- Continue until the entire bottom layer is straight, then unclip the next layer and repeat.

AFTER

5. FINISH AND PROTECT

- Once all sections are straight, let hair cool for 2–3 minutes.
- Apply a small amount of anti-frizz serum or finishing spray to hands, then smooth lightly over the hair.

BOUNCY DEFINED CURLS

Expert advice to help you style like a pro.

From frizzy and flat to voluminous, glossy curls that turn heads!

Unlock Now

1. HEAT, FILL & PREP

- Fill the H2O Steam Styler's water tank, switch it on, and let it heat up. While it's getting ready:
- Apply heat protectant to your hair from root to tip.
- Brush through to detangle.
- Section your hair into three layers — bottom, middle, and top — using sectioning clips.

2. CURL

- Take a small section of hair from the bottom layer.
- Clamp the Steam Styler near the root.
- Rotate the tool 180° away from your face and gently glide down the length of the hair.
- Hold for an extra second at the end for a defined curl.

3. REPEAT

- Continue curling the rest of your hair, working layer by layer.
- Alternate the direction of the curls (away from the face and toward the face) for a more natural, voluminous look.

4. SET THE STYLE

- Once cooled, gently separate curls with fingers for volume and bounce.
- Lightly mist with a flexible hold hairspray to set your curls.

PRO TIPS 💡

For tighter curls, wrap smaller sections and slow down the glide.
